YOUR skin is subjected to difficult conditions today," this beauty expert will assure you. "The modern woman uses make-up, of course. She indulges in all sons of outdoor sports. She works in offices. She dines, she dances. She uses her beauty hard. She must guard her lovely complexion twice as well as ever before. For this purpose there is nothing so effective as a soap made of the vegetable oils of palm and olives."

World's best known experts

Joining the outstanding experts in this city there are thousands (actually 19,813 renowned beauty specialists!) who find Palmolive Soap best to safeguard beauty. Their reasons are those of professional experts who have tried many methods of skin cleansing and found this superior to all others.

The skin, you see, is constructed of millions of tiny pores. These pores must breathe. Every morning and every night the collected impurities - the dirt, dust, oil; powder and rouge-must be removed thoroughly. And the penetrating lather of Palmolive Soap gets way down into the pores where other cleansing agents cannot reach.

Mrs. Marie R. Ward is a highly qualified representative of the world of beauty culture. Her salon cares for the complexion of many important women.

You consult your beauty expert as you would any professional. Training, skill, experience count in matters of beauty care. Just read what this expert has to say about Palmolive Soap.
